

GCC CAMPOREE 2025 ENTRYWAY CONTEST

Make the entrance to your campsite stand out at Camporee by making an entryway for the history books!

Criteria to follow for the contest:

- **Club name** - must be incorporated into the design
- **Camporee theme** - must be incorporated into the design (2025 Camporee theme is "Fearless with God")
- **Lashing** - use at least two types of lashing to secure the construction (using more types of lashing shows attention to detail)
- **Flags** - use the US flag and the Pathfinder flag in the construction (flags must be properly displayed according to the GCC Pathfinder Drill Manual). Additional flags that may be used are the Christian flag, the SDA flag, US state flag, and a different country flag (hint: no flag may be above the US flag).
- **Creativity**
- **Originality**
- **Club campsite fencing** - preference given to fencing that seems to carry the style and fit well with the entryway design. Construction fencing provides protection, but does not count in this contest.

PLEASE NOTE: clubs may NOT drill into the ground, dig holes or otherwise damage other Cohutta property to make their entryways. If any clubs are in violation of this, they may be liable for repair costs and/or exclusion from the contest.

Driving stakes into the ground is permitted.

Judging for the entryways will occur at a time that is deemed best in order to include all or as many as want to participate. Late arriving clubs may still be able to participate if much of the work is prepped and ready to put up. Weather may result in damage and may delay or hasten judging.

Prizes will be awarded for first, second, and third placements.
